Please note that while all degrees are conferred, only doctoral and bachelor graduates process across the stage. Taking photos from your seats during the ceremony is allowed, but we request that guests respect each other's comfort and enjoyment by not standing and blocking other people's views.

Photos of graduates can be purchased from GradImages: gradimages.com or (800) 261-2576.

The Johns Hopkins University is strongly committed to protecting the environment and practicing sustainability at all of our campuses. Today is no exception. Once again, this year's ceremony will be carbon neutral and zero waste. By using plant-based biodiesel to power the equipment on Homewood Field, we are avoiding fossil fuels and the associated impact on climate change. And since all waste will be composted or recycled, it will go to productive reuse instead of being incinerated. We are also highlighting our sustainability principles during Commencement in other ways: this program is printed on post-consumer recycled-content paper; our caterers are local and specialize in green practices; and most information was posted on the Internet to cut down on printed materials. We invite you to join our efforts to be sustainable by placing your bottles and cans in the green bins and all your food and paper waste in the yellow bins.

RECESSIONAL

The audience is requested to remain standing at their seats until the principals, officials, members of the faculties, and the graduates have left the area. The graduate marshals will lead the bachelor's candidates to Gilman Hall on Keyser Quadrangle to pick up their diplomas. The doctoral and master's graduates will be led back to the Newton H. White Athletic Center.

Immediately following the ceremony, graduates and their families are invited to attend the President's Reception on Keyser Quadrangle. Light refreshments will be served.

ARCHIPELAGOPROJECT.ORG

Music for today's ceremony and President's Reception is provided by the Archipelago Project, a not-for-profit performance ensemble that brings music education to underserved communities around the world. They are in Baltimore working with Tuned-In, a music education initiative that uses music as a vehicle for social change at the Peabody Preparatory. The group consists of musicians from the United States, Germany, and Austria, and includes JHU alumni Dan Trahey, Peter Lander, and Rafaela Dreisin. The Archipelago Project is accompanied today by Peabody Institute faculty, students, and alumni. For more information, please visit *archipelagoproject.org*.

THE JOHNS HOPKINS SOCIETY OF SCHOLARS

The Society of Scholars was created on the recommendation of then university President Milton S. Eisenhower and approved by the board of trustees on May 1, 1967. The society—the first of its kind in the nation—inducts former postdoctoral fellows, postdoctoral degree recipients, house staff, and junior or visiting faculty who have served at least a year at Johns Hopkins and thereafter gained marked distinction elsewhere in their fields of physical, biological, medical, social, or engineering sciences or in the humanities and for whom at least five years have elapsed since their last Johns Hopkins affiliation. A selection committee, whose members are equally distributed among the academic divisions, elects a limited number of scholars from the candidates nominated by the academic divisions with postdoctoral programs. The scholars are presented with a certificate and a medallion on a black and gold ribbon at an annual induction ceremony.

There are currently 611 members in the Johns Hopkins Society of Scholars.

The following list of Society of Scholars 2014 inductees is accompanied by a short description of their accomplishments at the time of their election to the society.

JAMES C. ANTHONY *East Lansing, Michigan*

Dr. Anthony is chairman of the Department of Epidemiology and Biostatistics at Michigan State University College of Human Medicine and director of the department's NIH/NIDA drug dependence epidemiology training programs. Before his move to Michigan State in 2003, Dr. Anthony was for many years a faculty member at the Johns Hopkins Bloomberg School of Public Health, where he arrived as a postdoctoral fellow in the Department of Mental Hygiene in 1977. He joined a pioneering group of epidemiologists and social scientists who were moving beyond clinical descriptions of neuroscience disorders by introducing quantitative analyses. Dr. Anthony became a leading faculty member who expanded quantitative analyses of these disorders and broke down many of the silo patterns that traditionally separated epidemiology, biostatistics, and demography. He held academic appointments in the Bloomberg School's departments of Epidemiology and Mental Health and the School of Medicine's Department of Psychiatry and Behavioral Sciences. He has received numerous honors for both his work and his mentoring of young research scientists.

ANDREAS D. BAXEVANIS *Bethesda, Maryland*

Dr. Baxevanis holds several positions in the Division of Intramural Research at NIH's National Human Genome Research Institute. He is the assistant director for Computational Biology in the division, and in its Genome Technology Branch he is director of the Bioinformatics and Scientific Programming Core and head of the Computational Genomics Unit, where his bioinformatics approaches to central problems of molecular-developmental biology and evolutionary biology are revolutionizing both fields. He has made seminal discoveries of physicochemical aspects of the chromosomal proteins (histones), as well as pioneering contributions to the emergence of, and medical applications in, the field of bioinformatics. At Johns Hopkins, he completed a PhD in the Department of Biology in the School of Arts and Sciences, and as a postdoctoral fellow in that department, he performed the first bioinformatics analysis of the newly discovered histone fold motif of protein folding and chromosomal assembly. As deputy director of the NIH intramural Genome Project, he helped extend the applications of bioinformatics methodologies in the emerging area of individualized medicine.

BELINDA EDMONDSON *Montclair, New Jersey*

Dr. Edmondson is a renowned professor of African-Caribbean and African-diasporic literatures and cultures. For the past 20 years, she has taught in the departments of English and of African American and African Studies at Rutgers University–Newark. She is the author of two books—*Making Men: Gender, Literary Authority, and Women's Writing in Caribbean Narrative* (Duke, 1999) and *Caribbean Middlebrow: Leisure Culture and the Middle Class* (Cornell, 2009). Dr. Edmondson has recently been awarded a residential fellowship at the Schomburg Center for Research in Black Culture in New York City, and is a recipient of awards and fellowships from the National Humanities Center, the Ford Foundation, the Andrew W. Mellon Foundation, and the Woodrow Wilson National Fellowship Foundation. She is on the editorial boards of the journals *Signs* and *Anthurium*. Dr. Edmondson received her PhD in English from Northwestern University in 1993; in 1993–94, and again in the spring of 1996, she was a Mellon postdoctoral fellow in the Department of English at Johns Hopkins.

WAFIK S. EL-DEIRY
Hershey, Pennsylvania

Dr. El-Deiry is the Rose Dunlap Professor of Medicine and chief of Hematology/Oncology, and the associate director for Translational Research at the Cancer Institute, Penn State University. Among his research interests are cancer cell death, resistance to anti-cancer drugs, and cancer drug discovery and development. He is committed to translational cancer research that is focused on bringing new biomarkers and novel therapies into the clinic. In addition to teaching and clinical work, he serves on review panels and editorial boards, including, since 2001, as founding editor-in-chief of *Cancer Biology and Therapy*. His findings have been published in *Cancer Cell*, *Cancer Research*, and *Science Translational Medicine*, among others. Dr. El-Deiry trained at Johns Hopkins Hospital, completing his internship and residency in internal medicine in 1994, followed by a fellowship in medical oncology.

GEZA FEKETEKUTY
Bumpass, Virginia

Mr. Feketekuty has had an illustrious policy and academic career focused on trade policy and international trade negotiations. For 21 years, he served with the Office of the U.S. Trade Representative in various senior trade policy leadership positions. He played a key role in developing U.S. policy positions on a range of new trade issues, including trade in services, aspects of competition policies, regulatory reform, and environmental/labor standards. From 1979 to 1985, he was responsible for planning and developing domestic and international agreement on the agenda for the Uruguay Round of Multilateral Trade Negotiations. From 1980 to 1983, he was also an adjunct professor in the SAIS International Economics program. In 1995, Mr. Feketekuty developed an innovative master's degree program in trade and commercial diplomacy at the Monterey Institute of International Studies. He was the director of the Center for Trade and Commercial Diplomacy at Monterey from 1995 to 1998 and a distinguished professor of commercial diplomacy from 1998 to 2008.

ARTHUR MICHAEL FELDMAN
Philadelphia, Pennsylvania

Dr. Feldman is executive dean of the Temple University School of Medicine and chief academic officer of the Temple University Health System, as well as a professor of medicine and physiology. After completing his PhD at the University of Maryland, he did a postdoctoral fellowship in physiology at the Johns Hopkins School of Medicine. He then earned his medical degree from Louisiana State University School of Medicine and returned to Johns Hopkins for his internship, residency, and a fellowship in cardiology. In 1985, Dr. Feldman was appointed an assistant professor of medicine at Johns Hopkins and named director of both the Heart Failure Research Program and the Belfer Laboratory for Molecular Biology of Heart Failure. Nine years later, he departed for the University of Pittsburgh Medical Center and Health System. In 2002 he became chairman of the Department of Medicine at Jefferson University School of Medicine. He was founding editor of the journal *Clinical and Translational Science* and is a past president of the Heart Failure Society of America and of the Association of Professors of Cardiology. He is an elected member of the American Society for Clinical Investigation, the Association of American Physicians, and the Interurban Clinical Club.

LINDA P. FRIED
New York, New York

Dr. Fried became dean of the Mailman School of Public Health at Columbia University, as well as the DeLamar Professor of Public Health and a professor of epidemiology, in 2008. She is also a professor of medicine in the College of Physicians and Surgeons at Columbia and senior vice president of Columbia University Medical Center. An internationally renowned scientist, she co-designed the Experience Corps, a community-based program that puts senior volunteers to work as tutors and mentors in public schools, benefiting both the students and the volunteers. At Johns Hopkins, Dr. Fried was the Mason F. Lord Professor of Geriatric Medicine, with joint appointments in the Bloomberg School of Public Health and the School of Nursing. She was also the division director of Geriatric Medicine and Gerontology, as well as director of the Johns Hopkins Center on Aging and Health. Dr. Fried has received numerous awards, including the Irving Wright Award from the American Federation for Aging Research and the American Geriatrics Society Henderson Award for career contributions to research on aging. She has also received an NIH Merit Award and was elected to the Institute of Medicine.

ETHYLIN WANG JABS
New York, New York

Dr. Jabs has been a pioneer in the study of birth defects. She has also contributed passionately to the education of medical geneticists in this country and abroad. Dr. Jabs is currently at the Icahn School of Medicine at Mount Sinai, where she is a vice chair and professor of genetics and genomic sciences, a professor of pediatrics, and a professor of developmental and regenerative biology. Almost uniquely the product of Hopkins training, Dr. Jabs enrolled in a combined BA/MD program, receiving her BA in 1974—a member of the first class with women undergraduates—and her MD in 1977. After an internship at Cornell, she returned to Hopkins for her pediatric residency and subspecialty training in medical genetics. In 1984, she joined the faculty, becoming a professor of pediatrics in 1996, with joint appointments in Medicine and Surgery. When she left Hopkins in 2007, she was the Dr. Frank V. Sutland Professor of Pediatric Genetics and director of the Center for Craniofacial Development and Disorders.

TIMOTHY R. B. JOHNSON
Ann Arbor, Michigan

Dr. Johnson is the Bates Professor of the Diseases of Women and Children and chair of the Department of Obstetrics and Gynecology at the University of Michigan Medical School. At the start of his career, he was a fellow in maternal fetal medicine at the Johns Hopkins University School of Medicine. After military service, he returned to Johns Hopkins and established one of the first fetal assessment centers in the United States. During his 10 years at Johns Hopkins, he became director of the gynecology/obstetrics residency training program and of the Division of Maternal Fetal Medicine. He was promoted in 1988 to associate professor with a joint appointment in the School of Public Health, where he focused on global women's health. In 1993, Dr. Johnson was recruited to the University of Michigan to chair its Department of Obstetrics and Gynecology. Most notably, he was a major architect of the Carnegie initiative to fund training in obstetrics and gynecology in Ghana. In recognition of his commitment, in 2013 the Timothy R. B. Johnson Professorship in Global Women's Health was endowed at the University of Michigan.

SHIRIKI KUMANYIKA
Philadelphia, Pennsylvania

Dr. Kumanyika is a professor of epidemiology at the University of Pennsylvania, where she is associate dean for health promotion and disease prevention and founding director of the Master of Public Health Program. President-elect of the American Public Health Association, she is recognized as one of the world's leading scholars and practitioners addressing obesity as a public health crisis, particularly in underserved populations. She is the founder of the African American Collaborative Obesity Research Network, a national organization that seeks to improve the quantity, quality, and effective translation of research on weight issues in African American communities. She was born and raised in Baltimore at a time when children, herself included, attended racially segregated schools. When she left Maryland to attend Syracuse University, she was attracted to sociology and psychology, as they related to racial disparities in health, especially in nutrition. After a job as a social worker, she returned to school, completing her doctoral degree in human nutrition at Cornell. She then came to Johns Hopkins as a Master of Public Health student, earning her degree in 1984 and joining the faculty of the Department of Epidemiology.

WILLIAM C. MOBLEY
La Jolla, California

Dr. Mobley holds the Florence Riford Chair for Alzheimer's Disease Research and is a Distinguished Professor and chair of the Department of Neurosciences at University of California, San Diego. He also serves as executive director of UCSD's Down Syndrome Center for Research and Treatment. Dr. Mobley earned his doctorate from Stanford University in neuroscience and behavioral science in 1974, and his MD from that institution in 1976. He completed a residency and fellowship in neurology and pediatric neurology at the Johns Hopkins University School of Medicine in 1982. His research focuses on the neurobiology of neurotrophic factor actions and signaling, and on the hypothesis that dysfunction of such signaling mechanisms contributes to neuronal dysfunction in developmental and age-related disorders of the nervous system. His emphasis on the neurobiology of Down syndrome has brought new insights into the disease, including possible treatments. He is a member of the Institute of Medicine, National Academy of Sciences. He collaborated with the Dalai Lama to create the Center for Compassion and Altruism Research and Education at Stanford University. He also serves as the expert adviser to the Congressional Down Syndrome Caucus, for which he received the Christian Pueschel Memorial Research Award in 2007.

KENNETH R. SEMBACH
Baltimore, Maryland

Dr. Sembach is head of the Hubble Mission Office at the Space Telescope Science Institute. In this position, he is deeply involved in the scientific, operational, and managerial aspects of the Hubble Space Telescope. He served as the instrument scientist and team leader for Hubble instruments, and he led two NASA mission concept studies and supported two others. In 2006, he became the Hubble Project scientist at STScI. Given his strong interest in the design and operation of observatories in space, Dr. Sembach played a critical role during the extended planning and execution of the Hubble servicing mission in May 2009, for which he received a NASA Exceptional Public Service Medal in 2010. His scientific interests focus on the physical properties of the intergalactic medium, the origin and evolution of structure in the universe, and the interactions of galaxies with their surroundings. He is known for his studies of diffuse gas clouds found between galaxies.

JULIE ANN SOSA
Durham, North Carolina

Dr. Sosa is a professor of surgery and oncology at Duke University, where she serves as chief of Endocrine Surgery and director of Health Services Research in the Department of Surgery; she is also the leader of the Endocrine Neoplasia Diseases Group at the Duke Cancer Institute and the Duke Clinical Research Institute. She is vice president of the American Association of Endocrine Surgeons and serves on practice guidelines committees for the American Thyroid Association and the National Comprehensive Cancer Network. She has published more than 130 peer-reviewed publications. Dr. Sosa is associate editor of the *Journal of Surgical Research* and is on the editorial boards of the *Journal of Clinical Endocrinology and Metabolism* and the *Journal of Thyroid Research*. She received her undergraduate degree from the Woodrow Wilson School at Princeton University and her MD from the Johns Hopkins University School of Medicine, where she also completed the Halsted residency program and a fellowship, and was a Robert Wood Johnson Clinical Scholar. She received a master's degree from the University of Oxford.

HUGH RINGLAND TAYLOR
Carlton, Australia

Dr. Taylor is the Ringland Anderson Professor of Ophthalmology and chairman of the Department of Ophthalmology at the University of Melbourne. He also holds the Harold Mitchell Chair of Indigenous Eye Health in the Melbourne School of Population and Global Health at the university. He is an accomplished academician, department chair, international leader, and scholar. At Johns Hopkins, he completed a postdoctoral fellowship at the Wilmer Eye Institute and then joined the faculty of ophthalmology in the School of Medicine and the departments of International Health and Epidemiology in the Johns Hopkins Bloomberg School of Public Health. Dr. Taylor helped design and carry out trials that demonstrated the efficacy of behavioral modifications and antibiotic prophylaxis, which now compose the core of the global strategy for the eradication of trachoma, a disease that has blinded 8 million people worldwide. He played a major role in demonstrating that annual dosing with Mectizan is effective in preventing the disease known as river blindness (onchocerciasis), resulting in dramatic reduction or elimination in many countries.

ORA WEISZ
Pittsburgh, Pennsylvania

Dr. Weisz is an international leader in the field of epithelial biology at the University of Pittsburgh School of Medicine, where she has been on the faculty since 1995. She is a professor of medicine, cell biology, and physiology, and the associate director of the Pittsburgh Center for Kidney Research. Dr. Weisz's research program focuses on the pathways of protein and lipid sorting in polarized epithelial cells. Her work has led to new understanding of the complex signals that direct membrane components to the apical surface, a process critical to the barrier function of epithelia. The work is innovative in the approaches used, including cutting-edge microscopic analyses. Dr. Weisz has also made a significant contribution to faculty mentoring and currently serves as assistant dean for faculty development at the University of Pittsburgh School of Medicine. She received her PhD in biochemistry, cellular and molecular biology from the Johns Hopkins University School of Medicine in 1990 and was a postdoctoral fellow at Johns Hopkins in the Department of Cell Biology and Anatomy.

LIJUN WU
Lexington, Massachusetts

Dr. Wu is the vice president of biology and preclinical research and development at Concert Pharmaceuticals. Prior to Concert, she held senior executive positions at Resolvix Pharmaceuticals, Novartis Institutes for BioMedical Research, and Millennium Pharmaceuticals. She received her PhD from Northwestern University and completed a postdoctoral fellowship at the Johns Hopkins University School of Medicine. Dr. Wu is a leader and pioneer in research and development in the bio-pharmaceutical industry in inflammation, cardiovascular and metabolic disease, and oncology. She is an author of more than 60 peer-reviewed publications in such prestigious journals as *Nature* and *Cell*, and an inventor who holds numerous patents. She received an Outstanding Contributor Award from Millennium, and Small Business Innovation Research grants from NIH. She was the recipient of *Mass High Tech's* "Women to Watch" award as recognition of a leader, innovator, and mentor in science and technology.

HONORARY DEGREES

NORMAN R. AUGUSTINE

Norman R. Augustine has been a leader for most of his life, from his teenage years as an Eagle Scout in Colorado to his former position as CEO and chairman of the board at Lockheed Martin, the nation's largest defense contractor.

Before leading Lockheed Martin, he held positions as undersecretary of the U.S. Army, chairman of the American Red Cross, national president of the Boy Scouts of America, and chairman of the National Academy of Engineering.

Having served for 16 years on the President's Council of Advisors on Science and Technology, Augustine is a national leader in ensuring that science and engineering remain at the forefront of the nation's list of priorities. He has led several major commissions, including 2007's monumental analysis of U.S. education and competitiveness, "Rising Above the Gathering Storm: Energizing and Employing America for a Brighter Economic Future," which outlined shortcomings and made recommendations for keeping America competitive in a world economy.

Augustine has also authored several books, including *The Defense Revolution* and *Augustine's Travels*. An avid adventurer, he has dogsledded in the Arctic, dived the Great Barrier Reef, and stood on both poles of the Earth. His *Augustine's Laws* is an insightful, humorous collection of 52 "laws" that critique bureaucracy, burdensome regulations, and unnecessary meetings. (Law No. 47: "Two-thirds of the Earth's surface is covered with water. The other third is covered with auditors from headquarters.")

Augustine is a regent of the University System of Maryland, a trustee emeritus of Johns Hopkins, and a former member of the boards of trustees of Princeton and MIT. He is a member of the Homeland Security Advisory Council and a former member of the U.S. Commission on National Security/21st Century.

You have said that you found yourself "quite by accident leading others," but you are, in fact, one of the great leaders of our time, having overseen some of our country's largest organizations. You have served your country's military with honor and have fought tirelessly to protect our nation's security.

You have been an outspoken supporter of science and engineering education and have been recognized by the National Academy of Sciences with its highest honor, the Public Welfare Medal.

Norman Augustine, for your accomplishments as a business leader and thinker, for your courage in speaking honestly about our nation's strengths and weaknesses, and for your advocacy in support of educating America's next generation, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.

TAYLOR BRANCH

Taylor Branch, an author who grew up in segregated Atlanta, has written that during his formative years, "I remained fearfully oblivious to race until the relentless freedom movement redirected my entire life's interest."

That life interest would lead him to author 11 books, most notably his trilogy on the civil rights era, *America in the King Years*. The first in the series, *Parting the Waters: America in the King Years, 1954-63*, was a co-winner of the Pulitzer Prize for History in 1989. Two successive books, *Pillar of Fire: America in the King Years, 1963-65*, and *At Canaan's Edge: America in the King Years, 1965-68*, also garnered critical and popular success.

Since the start of his career as a reporter for *The Washington Monthly* in 1970, Branch has never shied away from important stories. His books and magazine articles have covered subjects ranging from Watergate to the hypocrisy of college sports. National Public Radio commentator Frank Deford called his story on the NCAA, published in *The Atlantic* in 2011, "the most important article ever written about college sports." Branch turned the article into a book, *The Cartel: Inside the Rise and Imminent Fall of the NCAA*, which continues to fuel debate today.

In 1972, he worked for the campaign of Democratic presidential nominee George McGovern in Texas, where he shared an apartment with Bill Clinton. Years later, Branch would write *The Clinton Tapes: Wrestling History with the President*, a book produced from numerous tape-recorded interviews and conversations between the two, many of which occurred in the White House during Clinton's two terms in office.

In 2013, Branch returned to the subject of civil rights in *The King Years: Historic Moments in the Civil Rights Movement*, a book that distills his trilogy into 18 key episodes across the era.

You have made it your life's work to shine a light on the accomplishments of some of our greatest civil rights leaders and to foster a national dialogue, even when it makes us uncomfortable. Your books detailing one of the most significant periods in U.S. history have earned you a place among our most respected historians.

Taylor Branch, for your accomplishments as an author, teacher, and storyteller; for your relentless commitment to equality and human rights; and for helping citizens of our own time and in generations to come to understand and interpret events vital to our national identity, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.

PAMELA P. FLAHERTY

Pamela P. Flaherty, former chair of the Johns Hopkins board of trustees, is president and CEO of the Citi Foundation and director of Corporate Citizenship at Citi.

The Citi Foundation's mission is to support economic empowerment for lower-income families in the more than 100 countries where Citi has a presence. It supports microfinance, asset building, and youth economic opportunities, including success in college for low-income and first-generation college students. Through its "more than philanthropy" approach—financial support, employee engagement, and innovative grant structuring—the foundation supports innovation and partnerships that can make a real impact on people's lives.

Recognizing that philanthropy alone can't solve the world's challenges, in her broader citizenship role, she works to identify areas where Citi can produce a return for shareholders as well as make a difference to communities and the planet. Over the last 10 years under her leadership, Citi has excelled as an environmental sustainability leader. Citi has been named the "World's Greenest Bank" by *Bloomberg Markets* magazine and was named as the No. 1 sustainability leader among diversified financials by the Dow Jones Sustainability Index.

Flaherty, a 1966 graduate of Smith College, earned her master's degree in international relations from Johns Hopkins' Paul H. Nitze School of Advanced International Studies in 1968. She has been a member of the Johns Hopkins board of trustees since 1997, and in 2007 became the first woman and first graduate of SAIS to chair the university's governing board.

During her six-year tenure as chair, the university experienced a dramatic surge in applications across divisions; increased financial aid support dramatically; sustained a three-decade-long run of preeminence in federal research funding; spearheaded capital projects including restoring Gilman Hall to its former glory; increased the university's engagement in Baltimore; and earned high rankings for its schools and programs.

She is also on the boards of Colonial Williamsburg, The Nature Conservancy of Long Island, and Living Cities.

You have devoted yourself to the success of others. In your role at Citi, you have helped thousands of individuals across the world grow their businesses, attend college, and rebuild their communities in times of need. Here at Johns Hopkins, you have generously shared your leadership, your talent, and your time.

Pamela Flaherty, for your commitment to making our shared world prosperous and sustainable for all, for your unflagging dedication to our university, and for your presence—at convocations, commencements, board meetings, and anywhere else your wisdom and talents were needed—the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.

ROBERTA A. KAPLAN

Roberta A. Kaplan has said that what she does for a living is take risks. A partner in the litigation department of Paul, Weiss LLP in New York, Kaplan took one of the biggest risks of her career in 2009 when she agreed to represent Edith Windsor pro bono in her case against the United States. Windsor was suing the U.S. government for a refund of estate taxes she had to pay upon the death of her spouse, Thea Spyer, whom she had legally married in Canada. After several years of appeals, the U.S. Supreme Court agreed to hear the case in March 2013. Three months later, the court ruled that the Defense of Marriage Act violated the U.S. Constitution by barring legally married same-sex couples from enjoying the benefits of marriage conferred under federal law. The case has been recognized as one of the most important civil rights decisions of our time.

Kaplan, who has been described as a "powerhouse corporate litigator," received her law degree from Columbia University and her bachelor's degree from Harvard University. She has been selected as one of "The 100 Most Influential Lawyers" and one of the top "40 Under 40" lawyers in the United States by the *National Law Journal*. She was also named a 2013 "Litigator of the Year" by *The American Lawyer* and a 2013 "Lawyer of the Year" by Above the Law.

Her achievements have been honored by many public interest and civic organizations, including the American Constitution Society, the Family Equality Council, Stanford Law School, Columbia Law School, the New York County Lawyers' Association, and the Human Rights Campaign.

You showed courage and conviction when you agreed to take on the Defense of Marriage Act. When arguing before the Supreme Court, you said that "no one has identified any legitimate difference between gay couples and straight married couples that can possibly explain the sweeping undifferentiated and categorical discrimination of DOMA." At that time, only nine states permitted gay couples to marry. A year later, 17 states do.

Roberta Kaplan, for being a bold champion of the right for people who love each other to marry and to enjoy the full legal benefit of that union, for standing strong in the face of monumental challenges, and for continuing to fight for human rights for all, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.

FRED LAZARUS IV

When Fred Lazarus IV became president of the Maryland Institute College of Art in 1978, he promised his family that they would stay in Baltimore no longer than five years. Thirty-five years later, Lazarus is retiring from his post after helping to transform MICA into one of the country's foremost art colleges.

Under his leadership, MICA's enrollment has more than doubled; the size of the campus has increased tenfold; the endowment has grown by more than 25 times; and the institution has established three research centers and added 17 undergraduate and graduate academic programs.

Beyond MICA, Lazarus helped launch Baltimore's annual Artscape festival, which is now the largest free arts festival in the country. Located on and around MICA's campus, Artscape annually draws more than 350,000 visitors to the city and has a powerful economic impact on Maryland. Likewise, his leadership in opening MICA's Graduate Studio Center on a neglected stretch of Baltimore's North Avenue triggered the revitalization of that entire area and its subsequent designation as Maryland's first official Arts and Entertainment District. MICA and the Johns Hopkins University have since become strong partners in what is now known as Station North, a growing haven for individuals seeking creative pursuits. He also co-founded the newly opened Baltimore Design School, a local non-performing arts middle/high school that offers young people a place to nurture their talents.

Lazarus served as founding chair of both Americans for the Arts and the National Coalition for Education in the Arts, and as chair of the Maryland Independent College and University Association, the Arts Education Committee of the American Council for the Arts, and the Greater Baltimore Cultural Alliance.

You have been called "one of the thought leaders of Baltimore," and rightly so. You are a visionary who believes strongly that academic institutions can and should help revitalize and energize the neighborhoods in which they operate. Your ideas about the integration of arts, education, and community development have transformed the Maryland Institute College of Art and have brought unprecedented attention to Baltimore's creative community.

Fred Lazarus, for believing that serving your own institution means serving the larger community as well, for contributing your expertise to arts organizations locally and nationally, and for your courage and commitment in growing and sustaining a more vibrant city for artists and for all of us, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.

EDITH S. WINDSOR

In 2010, Edith S. Windsor sued the U.S. government for \$363,053. That was the amount she had had to pay in estate taxes when her spouse, Thea Spyer, died and left her property the year before. Windsor and Spyer had been together since they met in 1963. In 2007, they were legally married in Canada, and even announced their wedding in *The New York Times*. However, under the 1996 Defense of Marriage Act, which defined marriage as a union between a man and a woman, Windsor was not entitled to the federal estate tax exemption for surviving spouses.

When the Supreme Court decided 5-4 in Windsor's favor last June, it declared that DOMA violated the U.S. Constitution by barring legally married same-sex couples from enjoying the benefits of marriage conferred under federal law. The decision marked the first time the United States recognized marriage between partners of the same sex.

After the decision was announced, President Obama hailed the ruling as a "victory for American democracy," and Windsor, at the age of 84, became a hero of the gay-rights movement. She has been compared to Susan B. Anthony, Rosa Parks, and Harvey Milk, and has been hailed as "making the country more free, more fair, and more equal."

"If you have to outlive a great love," she has said, "I can't think of a better way to do it than being everybody's hero."

Windsor had blazed trails before. In the late 1950s, at a time when women were underrepresented in science and math careers, she earned a master's degree in mathematics from New York University and was hired by IBM, where she rose to the position of senior systems programmer and was one of the very few women at the heart of the programming revolution.

You have been called an "unlikely activist," but you had the courage to fight against injustice and in support of the many loving gay and lesbian couples who had been excluded from the federal protections and provisions extended to other married people. Because of your courage, the Defense of Marriage Act has been declared unconstitutional, and legally married same-sex couples are now recognized and protected by the federal government.

Edith Windsor, for your strength and determination in your fight for marriage equality and for human rights, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.

SUSAN WOJCICKI

In 1998, Susan Wojcicki rented her Menlo Park, California, garage to two Stanford graduates, Larry Page and Sergey Brin, who were starting a search engine company with an unusual sounding name. The following year, Wojcicki became Google's 16th employee and the company's first marketing manager, and would eventually rise to become senior vice president of advertising and commerce.

Wojcicki had a profound impact on growing Google's business. She led teams that helped define the vision and direction of the company's monetization platforms, helping Google become a \$50.6 billion business responsible for more than 40 percent of total digital ad revenue in the United States. At Google, she oversaw the design and engineering of AdWords, AdSense, DoubleClick, and Google Analytics.

She was also an early champion of online video and, in 2006, was instrumental in the \$1.6 billion acquisition of the video-sharing website YouTube. In February, she was tapped as the company's CEO, overseeing content, business operations, and product development. YouTube is the world's most popular digital video platform, used by a billion people across the globe.

Wojcicki has been named one of *Fortune's* "50 Most Powerful Women in Business," one of *Forbes'* "100 Most Powerful Women," and one of *Vanity Fair's* 50 "leading innovators [who] shake the foundations of their industries." She is an advocate for advancing women's roles in technology and has been involved with the Girls Rising campaign, a global initiative that showcases extraordinary girls and the power of education to change the world.

Before joining Google, Susan worked at Intel, Bain & Company and a number of start-ups. She graduated with honors from Harvard University and holds a master's in economics from UC Santa Cruz and an MBA from UCLA.

Renting your garage to the founders of Google may have been a practical decision, but you quickly recognized the company's potential to change the world. As senior vice president of advertising and commerce, you played a vital leadership role at Google, and you are now applying your tremendous vision, creativity, and business savvy as CEO of YouTube. Throughout your career, you have insisted on bringing others along with you, advocating for the education of girls and the advancement of women in technological fields.

Susan Wojcicki, for your visionary role in revolutionizing the way we search for and share information, for contributing not just to the businesses you work for but to the way we understand business today, and for inspiring the next generation of leaders, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.

THE UNIVERSITY MACE

The university mace, carried by the chief marshal, was first used at the 1954 Commemoration Day Ceremony. Eight symbols are handwrought in sterling silver on an ebony staff representing our cultural development from ancient times, through the Middle Ages and the Renaissance, to the modern era.

THE PRESIDENTIAL INSIGNIA

University President Ronald J. Daniels is wearing the presidential insignia symbolizing the authority vested in the president by the board of trustees. It is a chain of sterling silver links worn around the neck. Portraits of the Johns Hopkins University presidents are engraved on the faces of the links. On the reverse, the names and dates of office of each president are engraved. Blank links for future use are included. The university seal completes the design.

ACADEMIC GARB

The custom of wearing academic dress stems from the Middle Ages, when scholars were also clerics and wore the dress of their monastic order. The hood was originally a cowl attached to the gown, which could be slipped over the head for warmth. The cap was originally round but has changed to the varieties we see today.

The gown varies for the respective degrees. The bachelor's gown is worn closed and can be distinguished by its long, pointed sleeves. The master's gown is designed to be open with the arms placed through the slits at the elbows of the sleeves. The doctor's gown, also worn open, has full, bell-shaped sleeves with three horizontal bars stitched across the upper sleeve. There is a velvet panel draped around the neck and stitched down the front edges. This velvet trimming may be either black or the same color as the velvet border of the hood.

The hood also varies for the respective degrees. The master's hood is three and a half feet long. The doctor's hood is four feet long, of fuller shape, and rounded at the base. The hood is bordered with velvet, the color of which indicates the field of study in which the master's or doctoral degree was earned.

Dark blue – *Philosophy*
Light blue – *Education*

The silk lining of the hood represents the institution that granted the degree. If more than one degree is held, the gown and hood of the higher or highest degree is worn. The Johns Hopkins University has adopted an alternative costume to be used by all holding Johns Hopkins doctoral degrees, both earned and honorary. The costume consists of a gold robe with front and side panels in sable velvet and a six-sided Dutch academic cap with gold sweatband and tassel. The linings seen in today's academic procession may include the following.

THE UNIVERSITY MOTTO

Veritas vos liberabit.

The truth shall make you free.

ST. JOHN 8:32

THE JOHNS HOPKINS UNIVERSITY ODE

Truth guide our University,
 And from all error keep her free,
 Let wisdom yield her choicest treasure,
 And freedom reach her fullest measure;
 O, let her watchword ever be:
 The truth alone can make us free,
 Can make us free!

HONOR SOCIETIES

Phi Beta Kappa

Phi Beta Kappa, founded at the College of William and Mary in 1776, is the nation's oldest and most prestigious undergraduate honors organization. To gain election students must have excelled in a broad array of undergraduate courses in the arts and sciences offered at one of the 249 colleges and universities in the United States that are sufficiently rigorous and intellectually challenging to shelter a Phi Beta Kappa chapter. The Johns Hopkins University chapter was founded in 1895.

***Woodrow Wilson
Undergraduate Research
Fellowship Program***

Unique to Johns Hopkins University, the Woodrow Wilson Undergraduate Research Fellowship Program, founded in 1999, offers a select group of undergraduates in the Krieger School of Arts and Sciences the opportunity to explore new avenues of inquiry alongside and with the guidance of scholar-teacher mentors whose own research is at the cutting edge of their disciplines. Selection of fellows is based on academic merit and the strength of applicants' proposals for independent research. Students have the fellowship for the entire length of their undergraduate careers.

The following members of the graduating class have been Woodrow Wilson Fellows:

Talene Bilazarian
Samuel Joseph Chirtel

Rachel Cohen
Miriam D'Onofrio
Abigail Harri
Martha Conley Harrison
Jordan Hoffmann
Sarah Horton

SCHOOL OF NURSING

Doctors of Nursing Practice

Melanie Michelle Allison. An Evidence-Based Approach to Cascade Screen Relatives for Familial Hypercholesterolemia.

Deborah S. Croy. Strategies to Improve Provider Adherence to Clinical Practice Guidelines Addressing Non-HDL-C Goals or Lipid Management in an Appalachian Community Health Center.

Christina Michele DiNapoli. Improving Continuous Positive Airway Pressure Compliance Among Adults.

Marlo Ann Michelle Eldridge. Development of a Surgical Decision Making Algorithm for Continence Procedures in the Pediatric Bladder Exstrophy Population.

Emily Herrmann Gutierrez. Natural Health Product Management.

Sara Holland. Decreasing Hospital Acquired Pressure Ulcers in Botswana, Africa – Global Nursing Alliance.

Juliane Jablonski. Changing Traditional Patterns of Practice: Pain, Agitation, Delirium in the ICU.

Mary Bennett Marshman. Developing a System of Care for the Transient Ischemic Attack Patient.

Nilufeur McKay. Reducing Heart Failure Readmissions.

Scott Michael Newton. Rapid Access to Tertiary Care: Mitigating Barriers Impacting Clinical, Financial, and Operational Outcomes.

Cynthia Marie Knight Patton. Increasing Efficiency in Evaluation of Chronic Cough: A Multidisciplinary, Collaborative Approach.

Gail Judson Pietrzyk. Shaping Collaborative Practice: Operating Room Teamwork and Senior Leader Behaviors.

Doctors of Philosophy

Jessica Eileen Draughon. HIV Non-Occupational Post-Exposure Prophylaxis Following Sexual Assault: Program and Patient Characteristics and Protocol Adherence.*

Hwayun Lee. Barriers and Facilitators to Engaging in Health Promoting Behaviors Among Nurses in an Urban Setting: A Mixed-Method Study.**

Kerry Ann Peterson. Evaluation of Two Dating Violence Prevention Programs on a College Campus.

BLOOMBERG SCHOOL OF PUBLIC HEALTH

Doctors of Public Health

Leigh Jackson Cash, *Environmental Health Sciences*. Risk-informed Decision-making for Potential Inhalation of Plutonium-239 and -238 Dioxide Nanoparticles: Use of Default Assumptions and Material-specific Data for Assessing Dose.

Gai Cole, *Health Policy and Management*. Capturing Nursing Effort in the Emergency Department to Improve Socioeconomic Effectiveness.

William Wilson Davis, *International Health*. Health and Human Rights in Post-conflict Eastern Burma: Militarization Risk and Community Responses.

Lauren Elizabeth DiMiceli, *Epidemiology*. Depression, Methamphetamine Use, and Alcohol Consumption among Thai Youth in Chiang Mai Province: The Exploration of Perceptions of Depression and Associations between Substance Use and Depressive Symptoms.

Travis Warren Lim, *International Health*. Community-level Income Inequality, HIV Infection, and Stigma Toward Persons Who Inject Drugs in Vietnam: A Quantitative and Qualitative Study.*

Toru Matsubayashi, *International Health*. Examining the Intended and Unintended Effects of HIV-specific Health Programs on Health Service Delivery: Conceptual Framework and Country Case Studies in Uganda.*

- Tisha Moriko Mitsunaga, *International Health*. Assessing Data Quality in the Community Health Worker (CHW) Program in Eastern Province, Rwanda.
- Noor Sabah Rakhshani, *Health Policy and Management*. Individual and Contextual Level Factors Associated with Initiation, Completion and Up-to-date Vaccination in Routine Immunization Programs: An Analysis of Pakistan Demographic and Health Surveys, 1990 and 2006.
- Michael Benjamin Rothman, *Health Policy and Management*. Patient Activation Among High-risk Patients: Does the Patient Activation Measure Predict Utilization?
- Mohammad Rasheduzzaman Shah, *International Health*. Risk Factors and Care Seeking for Preterm Birth: Results from a Community-based Prospective Study in Rural Bangladesh.*
- Gary Stephen Young, *Environmental Health Sciences*. The Concept and Measurement of Socioeconomic Deprivation: Applications in Social and Environmental Epidemiology.*
- Doctors of Philosophy**
- Sapeckshita Agrawal, *Molecular Microbiology and Immunology*. Identification and Characterization of Novel Factors Needed for Two Aspects of *Myxococcus Xanthus* Physiology: Social Motility and Osmoregulation.**
- Benjamin Muir Althouse, *Epidemiology*. Mechanistic Modeling of Sylvatic Arboviruses in Senegal.*
- Andrew S. Azman, *Epidemiology*. Heterogeneities in Cholera Transmission and their Implications for Vaccination.
- James Allen Baron, *Biochemistry and Molecular Biology*. The Dual Nature of Reactive Oxygen Species: Regulation of pH Homeostasis and Survival in *Saccharomyces cerevisiae* by ROS Damage and Signaling.**
- Daniel C. Beachler, *Epidemiology*. Oral HPV Infection and Head and Neck Squamous Cell Carcinoma in HIV-infected and HIV-uninfected Individuals.
- Sarah Kathryn Wilson Beckham, *International Health*. "Like Any Other Woman?" Pregnancy, Motherhood, and HIV Among Sex Workers in Southern Tanzania.
- Melania Maria Bembea, *Clinical Investigation*. Anticoagulation and Neuromonitoring during Extracorporeal Membrane Oxygenation (ECMO).
- Debika Biswal, *Environmental Health Sciences*. Role of GSTP1 in Prostatic Inflammation and Carcinogenesis.*
- Virginia Barton Bowen, *Population, Family and Reproductive Health*. Supply- and Demand-side Factors Affecting Contraception and Abortion Decisions in Accra, Ghana.*
- Joan Alison Casey, *Environmental Health Sciences*. Spatial and Molecular Characterization of Methicillin-resistant *Staphylococcus aureus* (MRSA) Infection in Relation to High-density Livestock Production in Pennsylvania.
- Subhash Chandir, *International Health*. A Randomized Trial of the Effect of Buffer on the Serologic Response to Oral Polio Vaccine in Bangladesh and Timeliness of Routine Immunizations.*
- Eva Chang, *Health Policy and Management*. Access to Care Among Asian Americans: Assessing Determinants of Usual Source of Care.**
- Wei-Ju Chen, *International Health*. *Haemophilus Influenzae* Type B Vaccine Effectiveness on Oropharyngeal Carriage and Its Herd Effect among Children Under 2 Years Old in Dhaka, Bangladesh.*
- Danielle Virginia Clark, *Epidemiology*. Predicting the Time to Death Following Sepsis in Uganda: A Biomarker-based Approach.
- Erin Murphy Colligan, *Health Policy and Management*. Understanding Frequent Emergency Department Use in the Medicare Population.
- Alison Lee Connor, *International Health*. The Use and Misuse of Uterotonics and Related Adverse Maternal and Perinatal Health Outcomes in Rural Southern Nepal.**
- John Matthew Craig, *Molecular Microbiology and Immunology*. Immune-mediated Regulation of Pulmonary Inflammation in Diverse Model Systems: Malaria, Hookworm, and Emphysema.**
- AliceAnn Crandall, *Population, Family and Reproductive Health*. The Association of Maternal Emotion and Cognitive Control Capacities to Parenting and Child Well-being.
- Elina M. Dale, *International Health*. Performance-based Payments, Provider Motivation and Quality of Care in Afghanistan.
- Margaret Dayhoff-Brannigan, *Biochemistry and Molecular Biology*. Identifying Novel Genes Involved in Amino Acid Sensing.
- Cailin Elizabeth Deal, *Molecular Microbiology and Immunology*. Conserved Epitopes in *Plasmodium falciparum* and Influenza A Virus as Targets for Virus-vectored Immunization.
- Christina DeStefano Shields, *Environmental Health Sciences*. Interrogating Early Events in a Murine Enterotoxigenic *Bacteroides Fragilis* Model of Colonic Colitis and Tumorigenesis.**
- Nadia Griffin Diamond-Smith, *Population, Family and Reproductive Health*. Equalizing Child Sex Ratios in India: Understanding the Trends, Distribution, Composition, and Potential Drivers.
- Alexo R. Esperato-Martinez, *Health Policy and Management*. Happiness: A Policy Perspective.
- Anna K. Ettinger, *Population, Family and Reproductive Health*. Longitudinal Study of Parenting Practices and Child Overweight/Obesity Among Low-income Ethnic Minority Families.*
- Sean L. Evans, *Molecular Microbiology and Immunology*. HIV-1 Viral Infectivity Factor Recruitment of Cellular Protein Complexes to Counter Host Antiviral Response.

*Degree conferred August 30, 2013

**Degree conferred December 30, 2013

DOCTORAL DEGREES

- Itziar Marisol Familiar-Lopez, *Mental Health*. Exploring Mental Distress Among Adults During and After Armed Conflict in Burundi.*
- Bradley Roger Foerster, *Clinical Investigation*. Diagnostic Accuracy of Advanced Magnetic Resonance Imaging Techniques in Amyotrophic Lateral Sclerosis.*
- Eileen Michelle Geoghegan, *Molecular Microbiology and Immunology*. Identification and Applications of Llama-derived Single Domain Antibodies Binding to Glycoprotein D of Herpes Simplex Virus 2.
- Mary K. Grabowski, *Epidemiology*. The Small Scale Spatial Dynamics of HIV-1 Transmission in Rakai, Uganda.
- Morgan Grams, *Epidemiology*. Validation of Kidney Disease Outcomes.*
- Adelaide-Ulricke Hain, *Biochemistry and Molecular Biology*. Characterization, Structural Analysis, and Identification of Inhibitors of the ATG8 and the ATG8-ATG3 Interaction in the Malaria Parasite, *Plasmodium*.
- Charles Franklin Haines, *Clinical Investigation*. The Changing HIV Epidemic in the Modern Anti-retroviral Therapy Era.
- Edward Raphael Hammond, *Epidemiology*. Central Nervous System Penetration of Combination Antiretroviral Therapy: The Cerebrospinal Fluid (CSF) Risk Score, The Burden of CSF Viral Escape, and Depression in Persons with HIV.**
- Elizabeth Harrison, *Population, Family and Reproductive Health*. Parental Recognition of Adolescents' Internalizing Problems in the U.S.**
- Elliott Richard Haut, *Clinical Investigation*. Preventable Harm from Venous Thromboembolism (VTE) – A New Metric for Quality of Care.
- Renata Fortenberry Hilson, *Mental Health*. Examining the Effects of Post-rape Familial Rejection and Forced Separation on Current Mental Health Status Among Survivors of Sexual Violence in the Democratic Republic of Congo.**
- Rebecca Shoshana Hock, *Mental Health*. Parenting Styles, Culture, and Mental Health Outcomes Among Emerging Adult Offspring in Cebu, The Philippines.*
- Marian Patricia Jarlenski, *Health Policy and Management*. The Role of Policy in Promoting Women's Health during Pregnancy and Postpartum.
- Neetu Ann John, *Population, Family and Reproductive Health*. Couple Relationships and Contraceptive Use in Peri-urban Ethiopia.
- Roger A. Johns, *Health Policy and Management*. An Analysis of the Impact of Surgical Volume and Diffusion on Bariatric Surgery Outcomes.*
- Miranda Renee Jones, *Epidemiology*. Exposure to Ambient Air Pollution as a Potential Explanation of Ethnic Disparities in Atherosclerosis Severity and Progression.**
- Corinne Keet, *Epidemiology*. Genetic and Environmental Determinants of Food Allergy.
- Anjalee Kohli, *International Health*. Family Relationships and Social Interaction in Post-conflict South Kivu Province, Eastern Democratic Republic of Congo: A Mixed Methods Study with Women from Rural Walungu Territory.**
- Frederick Kofi Korley, *Clinical Investigation*. Diagnosing Acute Coronary Syndrome in the Emergency Department Using High Sensitivity Troponin I.**
- Jenna Rose Krall, *Biostatistics*. Statistical Methods for Linking the Chemical Composition of Particulate Matter to Health Outcomes.
- Amii Matilda Kress, *Epidemiology*. Functional Status in Neighborhood Context in Older Adults.*
- Chou-cheng Lai, *International Health*. Evaluation of a Pediatric Antimicrobial Stewardship Program in a Tertiary Care Medical Center.
- Laura Marie Lamberti, *International Health*. Evaluating a Childhood Diarrhea Management Program in Uttar Pradesh, Gujarat and Bihar, India: Determinants of Diarrhea Prevalence, Recall, Care-seeking and Treatment.
- Grace Peng Lee, *Mental Health*. Antecedents, Patterns, and Consequences of Gambling Among Urban Youth.**
- Suengwon Lee, *Environmental Health Sciences*. Alteration of Intracellular Calcium Release Mediated by CD38 Under Chronic Hypoxia in Pulmonary Arterial Smooth Muscle Cell.
- Qingfeng Li, *Population, Family and Reproductive Health*. Gaining Longitudinal Insights from Repeated Cross-sectional Survey Data: With Simulation-based Validation and Application.**
- Shanshan Li, *Biostatistics*. Statistical Methods for Evaluating Diagnostic Accuracy of Biomarkers.*
- Pamela Sherman Lilleston, *Health, Behavior and Society*. Attitudes Towards Relationship Power and Concurrent Sexual Partnerships Among African American Adolescents in Baltimore, MD.**
- Sabriya L. Linton, *Epidemiology*. Urban Redevelopment, Injection Drug Use, and Drug Market Activity in Baltimore, Maryland, 2000-2010.**
- Supriya Madhavan, *Population, Family and Reproductive Health*. An Analysis of the Proximate Determinants of Fertility in Sub-Saharan Africa with a Focus on Induced Abortion.
- Meredith Massey, *Health, Behavior and Society*. Immigrant Certified Nursing Assistants in Institutional Long-term Care Facilities: Language Proficiency, Communication Patterns and Quality Care.
- Farrah Jasmine Mateen, *International Health*. Emerging, Non-hereditary Risk Factors for Stroke: Three Studies.
- Jason Gaverick Matheny, *Health Policy and Management*. The Economics of Pharmaceutical Development: Costs, Risks, and Incentives.**
- Emma Elizabeth McGinty, *Health Policy and Management*. Serious Mental Illness and Gun Violence: Public Attitudes and Support for Gun Policy.*
- Nathan Patrick Miller, *International Health*. Integrated Community Case Management of Childhood Illness in Ethiopia: Implementation Strength and Quality of Care.**

- Morgana Lee Mongraw-Chaffin, *Epidemiology*. The Association of Anthropometry and Sex Hormones with Body Composition: The Multi-ethnic Study of Atherosclerosis.*
- Tatenda Geraldine Mupfudze, *International Health*. Plasma Hepcidin Concentrations and Factors Associated with Hemoglobin Levels in Infants and Young Children in Zimbabwe.
- Muzi Na, *International Health*. Household Food Insecurity Assessed by the Food Access Survey Tool (FAST) in Rural Bangladesh and Maternal and Infant Nutritional Outcomes.
- Rebecca Massa Nachman, *Environmental Health Sciences*. Biomarkers of Bisphenol A Exposure and Metabolism in a Population of Neonates in Baltimore, Maryland.
- McHale Newport-Berra, *Population, Family and Reproductive Health*. Examination of the Relationship Between School Organizational Climate and Elementary School Students' Socio-emotional Outcomes.**
- Anuli Ajene Nwaohiri, *International Health*. Population Coverage of Maternal, Newborn and Child Health Interventions: The Impact of Donor Financing, Coverage Change Metrics, and Predictors of Maternal Health Service Utilization.
- Jiwon Oh, *Clinical Investigation*. Quantitative Spinal Cord MRI in Multiple Sclerosis.
- Funmilola Morinoye OlaOlorun, *Population, Family and Reproductive Health*. Older and Forgotten? Contraceptive Experiences of Women Ages 35 and Older in Sub-Saharan Africa.*
- Babak John Orandi, *Clinical Investigation*. Kidney Transplantation in the Immunologically High-risk Patient.
- Lauren Renee Pacek, *Mental Health*. Cigarette Smoking Behaviors Among People Living with HIV: Associations with Individual- and Social-level Characteristics.**
- Alisa Ann Padon, *Health, Behavior and Society*. An Examination of the Role of Advertising Content in the Relationship between Alcohol Advertising Exposure and Underage Drinking.
- Ligia Paina Bergman, *International Health*. Dual Practice in Kampala, Uganda: A Mixed Methods Study of Management and Policy.
- Diana Nicole Paksarian, *Mental Health*. Residential Mobility and Separation from Parents during Childhood: Associations with Schizophrenia and Bipolar Disorder in Denmark.*
- Priya Palta, *Epidemiology*. Diabetes, Cognitive Decline, and the Impact on Diabetes Self-management in Older Adults.*
- Elizabeth M. Parker, *Health, Behavior and Society*. Women Taking Action: Use of Safety Strategies Among a Group of Survivors of Intimate Partner Violence.*
- Hilary S. Parker, *Biostatistics*. Practical Statistical Issues in Translational Genomics.*
- Shivani Anil Patel, *Epidemiology*. Household and Community Socioeconomic Determinants of Child Cognitive and Motor Function in Rural Nepal.*
- Morgan Mari Philbin, *Health, Behavior and Society*. The Promise of an AIDS-free Generation: An Inquiry into the Experiences of Healthcare Providers and HIV-positive Adolescents.*
