COMMENCEMENT 2018

Conferring of degrees at the close of the 142nd academic year

MAY 24, 2018
Please note that while all degrees are conferred, only doctoral and bachelor's graduates process across the stage. Taking photos from your seats during the ceremony is allowed, but we request that guests respect each other's comfort and enjoyment by not standing and blocking other people's views. Photos of graduates can be purchased from GradImages®: gradimages.com or (800) 261-2576.

A limited number of large-print copies of this program booklet are available at the program distribution tables near the arena entrances.

Music for today’s ceremony is provided by the Archipelago Project, a not-for-profit performance ensemble that brings music education to underserved communities around the world. Archipelago hosts a yearly residency in May with Baltimore City public school students, and during the summer hosts a Musical Leadership Academy in Traverse City, Michigan, for the same youth.

The group consists of musicians from the United States, Germany, and Austria, and includes Peabody faculty member Daniel Trahey and alumnus Pete Lander. The Archipelago Project is accompanied today by current Peabody Conservatory students Osi Atikpoh, Kayin Scantebury, and Christopher Frick; recent alum Eliza Minster; and Pete Francis. Honorary Degrees 2018

DAVID H. BERNSTEIN

Businessman and philanthropist David H. Bernstein is a beloved member of the Johns Hopkins community who is known for his friendliness, his warm sense of humor, and his generous spirit. He has turned his life’s passions of international affairs and lifelong learning into steadfast support for his alma mater.

Mr. Bernstein earned his bachelor’s degree in political science from the Krieger School in 1957, but he never lost his connection to Johns Hopkins: More than 50 years after graduating, he could be found in lecture halls at the Paul H. Nitze School of Advanced International Studies, taking courses on U.S. foreign policy, international relations, and Middle East studies.

Mr. Bernstein’s first foray into global politics was much humbler: As a teenager, he swept the warehouse floors at Samuel Meisel and Company Inc., a Baltimore-based company supplying duty-free items to voyaging ships. His curiosity sparked, he has said, “I decided then that I wanted to end up in a career that involved travel, learning a language, and interacting with international folks.”

An illustrious career would soon follow. After completing a brief stint in the U.S. Army, Mr. Bernstein returned to Samuel Meisel and Company, becoming its president in 1966 and, with partner John Couri, transforming the company into Duty Free International. By the time of his retirement in 1992, the company had grown to become the leading operator of duty-free stores along the U.S. borders with Canada and Mexico and in international airports. Today, Mr. Bernstein is a consultant with the International Association of Airport Duty Free Stores, the industry organization he presided over for 18 years.

A trustee emeritus of both the university and Johns Hopkins Medicine, Mr. Bernstein is a member of the SAIS Board of Advisors and the Carey Business School Board of Overseers, and is founding chair of the Advisory Council for the Zanvyl Krieger School of Arts and Sciences. Through the years, he has been an ardent Johns Hopkins supporter. Always a sports fan, Mr. Bernstein, who is now one of the owners of the Baltimore Orioles, happily donned the Blue Jay mascot costume as a Hopkins undergrad. Later, he began expressing his Blue Jay pride by supporting efforts including scholarships, construction, and the men’s lacrosse team, while making consistent annual gifts and contributions to special initiatives. Mr. Bernstein, along with his wife, Pat, and their family, have endowed professorships in both his name and the names of his parents, Joseph and Bertha Bernstein. The Bernstein family has also established an annual lecture series at SAIS to host renowned international leaders with diverse viewpoints.

In recent years, Mr. Bernstein has taken a keen interest in Johns Hopkins International, an entity that promotes the Johns Hopkins Medicine mission around the globe. He is also committed to the university’s work to strengthen its relationships locally.

Your passion for global business and international politics was sparked by a decidedly unglamorous task: sweeping the floors of a Baltimore warehouse that shipped merchandise around the world. With hard work and a Johns Hopkins degree, you became that same company’s president, emerging as a worldwide leader in your field. As your career flourished, you supported other motivated young people, who would become citizens of the world with the help of a Johns Hopkins education.

David H. Bernstein, for your extraordinary generosity and commitment to learning and discovery, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.
MELLODY HOBSON

Mellody Hobson is a nationally recognized voice on financial literacy and investor education. She has transcended stereotypes to emerge as a leader in a field traditionally dominated by men.

Ms. Hobson is president of Ariel Investments, one of the country’s largest African-American–owned investment firms. Her team manages more than $13 billion in assets. But Ariel’s clients aren’t the only beneficiaries of her talents: She is a regular contributor and analyst on finance, the markets, and economic trends for CBS News. She also contributes weekly money tips on the Tom Joyner Morning Show and writes a column for Black Enterprise magazine.

She is the first African-American woman to be named chair of the Economic Club of Chicago, an influential forum encouraging dialogue on pressing financial and social issues in Chicago and beyond. She has been a member of the ECC for almost 22 years and is only the second woman to become its chair.

With her husband, renowned filmmaker George Lucas, Ms. Hobson's philanthropic efforts are focused on creating educational opportunities for young people. She is a board member of the George Lucas Educational Foundation and serves as chair of After School Matters, a nonprofit that provides Chicago teens with high-quality, out-of-school-time programs.

In addition to serving on the board of directors for the Estée Lauder Companies Inc., JPMorgan Chase, the Starbucks Corporation, the Chicago Public Education Fund, and the Lucas Museum of Narrative Art, Ms. Hobson was named to Time's annual list of the 100 most influential people in the world. In 2016, she was inducted into the American Academy of Arts and Sciences. She earned her bachelor's degree from the Woodrow Wilson School of Public and International Affairs at Princeton University.

In tandem with sharing her financial acumen with the world, Ms. Hobson devotes significant time and attention to discussing the strategic advantages of workplace diversity. In a widely viewed TED Talk, she encouraged everyone, from CEOs to students, to stop being colorblind and instead be “color brave”: “I’m asking you to look at the people around you purposefully and intentionally. Invite people into your life who don’t look like you, don’t think like you, don’t act like you, don’t come from where you come from, and you might find that they will challenge your assumptions and make you grow as a person.”

Your achievements in the field of financial literacy are unprecedented. But you don't want your success to be a novelty. You have said that it is your life’s calling to promote financial literacy, and in the course of doing so, you have become emboldened to speak about workplace diversity, arguing that diversity on the job leads to a stronger society.

Mellody Hobson, for your own remarkable success in the financial industry and for believing that everyone should have a seat at the table, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.
GEORGE LUCAS

George Lucas is a visionary filmmaker, technological innovator, and champion of American education whose creativity has inspired countless young people to follow their imaginations, wherever they may lead.

Mr. Lucas is a cinema legend. A director, producer, screenwriter, and special effects innovator, he is best known for the semi-autobiographical coming-of-age story *American Graffiti*, as well as the *Star Wars* and *Indiana Jones* franchises. Throughout the 1970s and 1980s, together with friends and colleagues Steven Spielberg and Francis Ford Coppola, Mr. Lucas helped produce a radical shift in how American movies were made. Before Mr. Lucas, science fiction and fantasy movies weren’t big moneymakers, but in 1977, *Star Wars: Episode IV—A New Hope* broke the mold, grossing $775 million worldwide, winning seven Academy Awards and launching a saga that continues to delight audiences today.

After the unprecedented success of *Star Wars*, Mr. Lucas and his company Lucasfilm Ltd. continued to develop cutting-edge special effects, sound, and computer animation. This led to the first digital editing system and also the Pixar Image Computer, which eventually led to Pixar Animation Studios. In 2012, Mr. Lucas sold Lucasfilm to the Walt Disney Co., which continues to produce blockbusters based in the galaxy he created.

The $4 billion sale of Lucasfilm enabled Mr. Lucas to dedicate more time to the George Lucas Educational Foundation, which he founded in 1991. Driven by his own disappointing experiences as a young student, Mr. Lucas strives to highlight proven strategies, tools, and resources that spark a lifetime of learning and creativity. The foundation shares its research findings and practical classroom application via its website, Edutopia.org, to promote innovative, replicable, and evidence-based programs and practices that prepare students to thrive in school and beyond. Mr. Lucas’ wife, Mellody Hobson, is an active partner in the endeavor and is a member of the foundation’s board.

Mr. Lucas received the prestigious Irving G. Thalberg Memorial Award from the Academy of Motion Picture Arts and Sciences for his body of cinematic work, and two Emmy Awards from the Academy of Television Arts and Sciences for his work in animation. He has also been honored with two of the nation’s highest awards presented by the president of the United States: the National Medal of Technology, for over three decades of technological innovation; and the National Medal of Arts, in recognition of lifetime achievement in the creation and production of the arts in the United States.

Mr. Lucas earned his bachelor’s degree in film from the University of Southern California in 1966. He serves on the board of the Film Foundation and the USC School of Cinematic Arts Board of Councilors. He is currently building the Lucas Museum of Narrative Art, emphasizing American illustrative, digital, cinematic, and animation art as an avenue for the exploration of the great storytelling history, populist works, and artistic innovation of the past 150 years.

*It's hard to imagine what movies would be like without your creative influence. You have taken us to faraway galaxies full of characters who are out of this world and yet down-to-earth in the way their humanity mirrors our own. To help the next generation follow its dreams, you have dedicated yourself to highlighting and supporting best practices in American education so every school can have access to programming that works.*

*George Lucas, for igniting our imaginations and being a force for innovation in American education, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.*
Bishop Douglas Irving Miles is a civic leader and a Johns Hopkins University alumnus who has dedicated his life to fighting for social justice in his hometown, Baltimore. He is a key partner in the university's initiatives to create lasting economic opportunities in our city.

When Bishop Miles enrolled at Johns Hopkins on a pre-med track in 1966, he was one of only 14 African-American students at the university. In April 1968, when riots erupted in Baltimore following the assassination of Martin Luther King Jr., the Homewood campus was largely insulated from the mayhem. But as a commuter student living in Reservoir Hill, Bishop Miles saw buildings on fire, bricks shattering store windows, and riot-control troops trying to quell the violence as he made his way to and from campus. He recalls an atmosphere of “terror and chaos” at Hopkins, where students were locked down and glued to the news. He remembers feeling uncomfortable and under pressure to be a “spokesperson for African-Americans” and provide an explanation of the riots, saying, “It was a time of great pain for African-Americans on campus.”

Bishop Miles was among a group of black students on campus who turned their pain into progress. They urged the administration to hire more African-American faculty and established the Black Student Union in fall 1968. Activism sparked a longtime feeling within Bishop Miles that he was being called to the ministry, prompting him to change his academic focus. After earning a bachelor’s degree in humanistic studies in 1970, he went on to become a tireless advocate for civil rights and eventually, with his wife Rosanna, founded a ministry, Koinonia Baptist Church, in 1992.

Among his greatest accomplishments are those he has achieved as co-chair of a nearly 40-year-old community organizing group called BUILD, short for Baltimoreans United in Leadership Development. BUILD has brought together congregations, public schools, and neighborhood associations to improve the city's housing, increase local job opportunities, and rebuild and support schools and neighborhoods. Bishop Miles has been a critical partner in several of the university's economic inclusion efforts, including the HopkinsLocal and BLocal initiatives.

As a senior at Baltimore’s Dunbar High School, you saw yourself heading out west for college and studying to be a doctor or a science teacher. Yet you decided to stay in your hometown and enroll at Johns Hopkins University. In doing so, you witnessed great upheaval in a city divided by color lines—and you were determined to help transform both your university and your city.

Bishop Douglas Irving Miles, for sharing our deep and unwavering commitment to Baltimore, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.
SOLOMON H. SNYDER

Solomon H. Snyder is a giant of modern neuroscience whose understated manner belies his significant accomplishments. An approachable mentor, Dr. Snyder has spent his career at Johns Hopkins achieving breakthrough after breakthrough while earning a reputation as a remarkable, galvanizing presence among young scholars in the lab.

A Distinguished Service Professor of Neuroscience, Pharmacology, and Psychiatry at the Johns Hopkins University School of Medicine, Dr. Snyder is known worldwide for figuring out how the brain receives and transmits messages—a discovery that has been translated into widely used therapies for psychiatric disorders, pain, and strokes. Yet he is as celebrated for being down-to-earth as he is for being a man of science. He did not have a strong interest in science as a kid. He excelled as a classical guitar player and studied philosophy but didn’t envision a career in those fields. A summer job at the National Institutes of Health introduced him to his mentor, future Nobel Prize–winning neuroscientist Julius Axelrod. Inspired by Axelrod’s creativity and ingenuity, he followed in his mentor’s footsteps to become an eminent scientist whose ideas changed the course of neuroscience.

After studying as an undergraduate at Georgetown University, receiving his medical degree from the Georgetown University School of Medicine, and completing additional studies at the National Institutes of Health, Dr. Snyder began his tenure at Johns Hopkins in 1965 as an assistant resident in psychiatry. In 1966, he joined the Hopkins faculty, becoming one of the youngest full professors in the university’s history. In 1980, he founded the School of Medicine’s Department of Neuroscience, serving as its director from 1980 to 2006, when the department was renamed the Solomon H. Snyder Department of Neuroscience in his honor.

Dr. Snyder’s dozens of professional and academic honors include the Albert Lasker Basic Medical Research Award, the National Academy of Sciences Award in the Neurosciences, and the National Medal of Science. He has authored or co-authored more than 1,000 peer-reviewed publications and seven books, and is associate editor of the Proceedings of the National Academy of Sciences. Dr. Snyder, who never set down his guitar or his passion for music, is also a longtime member of the board of directors of the Baltimore Symphony Orchestra. He shared his love of the arts with his wife, Elaine, who was a longtime trustee of the Baltimore Museum of Art as well as a champion for rights and programming for people with chronic mental illness.

A gifted classical guitarist, you set aside the musician’s life for a career in scientific research. But you didn’t set aside your creativity. Rather, your body of work represents the product of an abundantly inspired mind and the beauty to be found when art and science collide.

Solomon H. Snyder, for being a humble collaborator with a propensity for big ideas, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.
As founder and executive director of the Equal Justice Initiative in Montgomery, Alabama, Bryan A. Stevenson works tirelessly to challenge the legacy of racial discrimination and poverty in the American criminal justice system. Accused criminals with no money, people condemned to life in prison or death row, defendants and prisoners who are mentally ill, and children being prosecuted as adults all have a champion in Mr. Stevenson.

The renowned public interest lawyer takes on cases others consider expensive, exhausting, and unwinnable because, he says, “each of us is more than the worst thing we’ve ever done.” He and his team have freed or won reduced sentences for more than 125 wrongly condemned death row prisoners. His successful track record before the United States Supreme Court includes winning a historic ruling declaring that it is unconstitutional to sentence any child 17 or younger to life without parole. Outside the courtroom, he has initiated major anti-poverty and anti-discrimination efforts to educate communities about slavery, lynching, and racial segregation.

Mr. Stevenson earned his bachelor’s degree in 1981 from Eastern University in St. Davids, Pennsylvania. He then went to Harvard University, where he won a full scholarship and earned both a master’s degree in public policy from the John F. Kennedy School of Government and a JD from Harvard Law School. In addition to his post at the Equal Justice Initiative, Mr. Stevenson is a professor of law at the New York University School of Law, where he won the 2006 Distinguished Teaching Award.

Mr. Stevenson was awarded a prestigious MacArthur Fellowship and the National Medal of Liberty from the American Civil Liberties Union. In 2015, he was named to the Time 100 recognizing the world’s most influential people. Fortune included him on its 2016 and 2017 lists of World’s Greatest Leaders. His award-winning book, Just Mercy, was a New York Times best-seller, and his 2012 TED talk about racial imbalance in the American justice system has been watched nearly 5 million times.

In April 2018, the Equal Justice Initiative opened a new museum called the Legacy Museum: From Enslavement to Mass Incarceration, built on the site of a former slave warehouse in downtown Montgomery, Alabama, and a national memorial to victims of lynching called the National Memorial for Peace and Justice.

Your credo is redemption, not revenge. That forgiving spirit is a lifeline for the people you defend, including children and adolescents, the poor, people who are mentally ill, and wrongly convicted people on death row. Your willingness to fight uphill battles against racial discrimination and poverty extends beyond the courthouse through your efforts to educate people about societal ills including slavery, lynching, and racial segregation.

Bryan A. Stevenson, for working to ensure that the justice system serves everyone, no matter the color of their skin or how little money they have, the Johns Hopkins University is proud to confer upon you the degree of Doctor of Humane Letters, honoris causa.
The University Mace

The university mace, carried by the chief marshal, was first used at the 1954 Commemoration Day Ceremony. Eight symbols are handwrought in sterling silver on an ebony staff representing our cultural development from ancient times, through the Middle Ages and the Renaissance, to the modern era.

The Presidential Insignia

University President Ronald J. Daniels is wearing the presidential insignia signifying the authority vested in the president by the board of trustees. It is a chain of sterling silver links worn around the neck. Portraits of the Johns Hopkins University presidents are engraved on the faces of the links. On the reverse, the names and dates of office of each president are engraved. Blank links for future use are included. The university seal completes the design.

Academic Garb

The custom of wearing academic dress stems from the Middle Ages, when scholars were also clerics and wore the costume of their monastic order. The hood was originally a cowl attached to the gown, which could be slipped over the head for warmth. The cap was originally round but has changed to the varieties we see today.

The gown varies for the respective degrees. The bachelor’s gown is worn closed and can be distinguished by its long, pointed sleeves. The master’s gown is designed to be open with the arms placed through the slits at the elbows of the sleeves. The doctor’s gown, also worn open, has full, bell-shaped sleeves with three horizontal bars stitched across the upper sleeve. There is a velvet panel draped around the neck and stitched down the front edges. This velvet trimming may be either black or the same color as the velvet border of the hood.

The hood also varies for the respective degrees. The master’s hood is three and a half feet long. The doctor’s hood is four feet long, of fuller shape, and rounded at the base. The hood is bordered with velvet, the color of which indicates the field of study in which the master’s or doctoral degree was earned.

Dark blue — Philosophy
Light blue — Education
Peacock blue — Public Policy
Green — Medicine
Salmon pink — Public Health
Orange — Engineering
Gold-yellow — Science

White — Arts and Letters
Pink — Music
Purple — Law

Tan — Business
Dark brown — Fine Arts
The silk lining of the hood represents the institution that granted the degree. If more than one degree is held, the gown and hood of the highest degree is worn. The Johns Hopkins University has adopted an alternative costume to be used by all holding Johns Hopkins doctoral degrees, both earned and honorary. The costume consists of a gold robe with front and side panels in sable velvet and a six-sided Dutch academic cap with gold sweatband and tassel. The linings seen in today's academic procession may include the following.

Brown University — brown, red
California Institute of Technology — orange, white
Columbia University — light blue, white

Truth Guide Our University
The Spirit of JHU

ADAPTATION OF THE JOHNS HOPKINS UNIVERSITY ODE
ERIK MEYER
PEABODY ’02, ’04 (MM)

Truth guide our university,
and from all error keep us free.
Let knowledge grow from more to more,
and may our scholars' spirits soar,
Their souls for light forever burn,
send forth thy fire, that they may learn;
And let their faithful teaching be:
the truth alone can make us free.
May wisdom be our nobler aim,
and learning set our hearts aflame,
And let our watchword ever be:
the truth for aye shall keep us free!

Phi Beta Kappa

Phi Beta Kappa, founded at the College of William and Mary in 1776, is the nation's oldest and most prestigious undergraduate honors organization. To gain election students must have excelled in a broad array of undergraduate courses in the arts and sciences offered at one of the 249 colleges and universities in the United States that are sufficiently rigorous and intellectually challenging to shelter a Phi Beta Kappa chapter. The Johns Hopkins University chapter was founded in 1895.

Honor Society for the Peabody Conservatory

Pi Kappa Lambda, Epsilon Omicron Chapter

The Pi Kappa Lambda Society was established in 1918 by the Alumni Association of the School of Music at Northwestern University in order to accord particular recognition to students of outstanding musical achievement and academic scholarship. The first member was Peter Christian Lutkin, dean of the School of Music at Northwestern University. His initials in their Greek equivalents were selected for the name of the society. Dean Lutkin was issued key number one. The course of the organization has been one of continuing expansion. Election to membership in Pi Kappa Lambda has been indicative of superior achievement in music, together with the personal qualifications pertaining to an outstanding exponent of the art. The society is continually dedicated to the furtherance of music in education and education in music in colleges, universities, and other institutions and is convinced that recognizing and honoring persons who have enhanced their talents by serious, diligent, and intelligent study will stimulate others to do the same.
